| Overview | |
|-------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Quantity: | 20 μg |
| Target: | BCL2L14 |
| Protein Characteristics: | Transcript Variant 1 |
| Origin: | Human |
| Source: | HEK-293 Cells |
| Protein Type: | Recombinant |
| Purification tag / Conjugate: | This BCL2L14 protein is labelled with Myc-DYKDDDDK Tag. |
| Application: | Antibody Production (AbP), Standard (STD) |
| Product Details | |
| Characteristics: | Recombinant human Bcl-2-like 14 (transcript variant 1) protein expressed in HEK293 cells. Produced with end-sequenced ORF clone |
| Purity: | > 80 % as determined by SDS-PAGE and Coomassie blue staining |
| Target Details | |
| Target: | BCL2L14 |
| Alternative Name: | Bcl-2-Like 14 (BCL2L14 Products) |
| Background: | The protein encoded by this gene belongs to the BCL2 protein family. BCL2 family members |
| | form hetero- or homodimers and act as anti- or pro-apoptotic regulators that are involved in a |
| | wide variety of cellular activities. Overexpression of this gene has been shown to induce |
| | apoptosis in cells. Three alternatively spliced transcript variants encoding two distinct isoforms |

Target Details

| | have been reported for this gene. |
|-------------------|-----------------------------------|
| Molecular Weight: | 36.4 kDa |
| NCBI Accession: | NP_620048 |

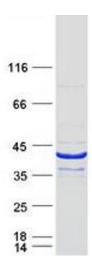

Application Details

| Application Notes: | Recombinant human proteins can be used for: | |
|--------------------|------------------------------------------------------|--|
| | Native antigens for optimized antibody production | |
| | Positive controls in ELISA and other antibody assays | |
| Comment: | The tag is located at the C-terminal. | |
| Restrictions: | For Research Use only | |

Handling

| Concentration: | 50 μg/mL |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| Buffer: | 25 mM Tris.HCl, pH 7.3, 100 mM glycine, 10 % glycerol. |
| Storage: | -80 °C |
| Storage Comment: | Store at -80°C. Thaw on ice, aliquot to individual single-use tubes, and then re-freeze immediately. Only 2-3 freeze thaw cycles are recommended. |
