Target Details

Target:	DTX2
Alternative Name:	Dtx2,rnf58 (DTX2 Products)
Background:	Regulator of Notch signaling, a signaling pathway involved in cell-cell communications that regulates a broad spectrum of cell-fate determinations. Probably acts both as a positive and negative regulator of Notch, depending on the developmental and cell context. Mediates the antineural activity of Notch, possibly by inhibiting the transcriptional activation mediated by

Target Details
