| Quantity:                     | 50 μg   |
|-------------------------------|---|
| Target:                       | FBXO25  |
| Origin:                       | Human   |
| Source:                       | Escherichia coli (E. coli)  |
| Protein Type:                 | Recombinant   |
| Purification tag / Conjugate: | This FBXO25 protein is labelled with His tag.   |
| Application:                  | Antibody Production (AbP), Standard (STD)   |
| Product Details               |   |
| Characteristics:              | <ul> <li>Recombinant human FBX025 (full length, N-term HIS tag, transcript variant 3) protein expressed in E.coli.</li> <li>Produced with end-sequenced ORF clone</li> </ul>  |
| Purity:                       | > 80 % as determined by SDS-PAGE and Coomassie blue staining  |
| Target Details                |   |
| Target:                       | FBXO25  |
| Alternative Name:             | Fbxo25 (FBXO25 Products)  |
| Background:                   | This gene encodes a member of the F-box protein family which is characterized by an approximately 40 amino acid motif, the F-box. The F-box proteins constitute one of the four subunits of ubiquitin protein ligase complex called SCFs (SKP1-cullin-F-box), which function in |

phosphorylation-dependent ubiquitination. The F-box proteins are divided into 3 classes: Fbws

#### **Target Details**

| containing WD-40 domains, Fbls containing leucine-rich repeats, and Fbxs containing either      |    |
|---|----|
| different protein-protein interaction modules or no recognizable motifs. The protein encoded by | οу |
| this gene belongs to the Fbxs class. Three alternatively spliced transcript variants encoding   |    |
| distinct isoforms have been found for this gene.  |    |

Molecular Weight: 33.9 kDa

NCBI Accession: NP\_036305

## **Application Details**

| Application Notes: | Recombinant human proteins can be used for:          |  |
|--------------------|--|--|
|                    | Native antigens for optimized antibody production    |  |
|                    | Positive controls in ELISA and other antibody assays |  |
| Comment:           | The tag is located at the N-terminal.                |  |

Restrictions: For Research Use only

### Handling

| Concentration:   | 50 μg/mL  |
|------------------|---|
| Buffer:          | 25 mM Tris, pH 8.0, 150 mM NaCl, 10 % glycerol, 1 % Sarkosyl.   |
| Storage:         | -80 °C  |
| Storage Comment: | Store at -80°C. Thaw on ice, aliquot to individual single-use tubes, and then re-freeze immediately. Only 2-3 freeze thaw cycles are recommended. |
