| Characteristics:              | <ul><li>Recombinant human LMCD1 protein expressed in HEK293 cells.</li><li>Produced with end-sequenced ORF clone</li></ul>                                                                                                                                                                                                                                                                                                             |
| Purity:                       | > 80 % as determined by SDS-PAGE and Coomassie blue staining                                                                                                                                                                                                                                                                                                                                                                           |
| Target Details                |                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| Target:                       | LMCD1                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Alternative Name:             | Lmcd1 (LMCD1 Products)                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Background:                   | This gene encodes a member of the LIM-domain family of zinc finger proteins. The encoded protein contains an N-terminal cysteine-rich domain and two C-terminal LIM domains. The presence of LIM domains suggests involvement in protein-protein interactions. The protein may act as a co-regulator of transcription along with other transcription factors. Alternate splicing results in multiple transcript variants of this gene. |

| Target Details      |                                                      |
|---------------------|------------------------------------------------------|
| Molecular Weight:   | 40.7 kDa                                             |
| NCBI Accession:     | NP_055398                                            |
| Application Details |                                                      |
| Application Notes:  | Recombinant human proteins can be used for:          |
|                     | Native antigens for optimized antibody production    |
|                     | Positive controls in ELISA and other antibody assays |
| Comment:            | The tag is located at the C-terminal.                |
| Restrictions:       | For Research Use only                                |
| Handling            |                                                      |

| Concentration:   | 50 μg/mL                                                                                                                                          |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| Buffer:          | 25 mM Tris.HCl, pH 7.3, 100 mM glycine, 10 % glycerol.                                                                                            |
| Storage:         | -80 °C                                                                                                                                            |
| Storage Comment: | Store at -80°C. Thaw on ice, aliquot to individual single-use tubes, and then re-freeze immediately. Only 2-3 freeze thaw cycles are recommended. |
