| Overview                       |   |
|--------------------------------|---|
| Quantity:                      | 50 μg   |
| Target:                        | LRRC17  |
| Origin:                        | Human   |
| Source:                        | Escherichia coli (E. coli)  |
| Protein Type:                  | Recombinant   |
| Purification tag / Conjugate:  | This LRRC17 protein is labelled with His tag.   |
| Application:                   | Antibody Production (AbP), Standard (STD)   |
| Product Details                |   |
|                                |   |
| Characteristics:               | <ul> <li>Recombinant human LRRC17 (full length, N-term HIS tag, transcript variant 2) protein expressed in E. coli.</li> <li>Produced with end-sequenced ORF clone</li> </ul> |
| Characteristics:  Purity:      | expressed in E. coli.   |
|                                | expressed in E. coli.  • Produced with end-sequenced ORF clone  |
| Purity:                        | expressed in E. coli.  • Produced with end-sequenced ORF clone  |
| Purity: Target Details         | expressed in E. coli.  • Produced with end-sequenced ORF clone  > 80 % as determined by SDS-PAGE and Coomassie blue staining  |
| Purity: Target Details Target: | expressed in E. coli.  • Produced with end-sequenced ORF clone  > 80 % as determined by SDS-PAGE and Coomassie blue staining  LRRC17  |

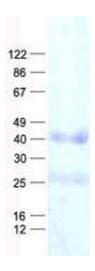

## **Application Details**

| Application Notes: | Recombinant human proteins can be used for:          |
|--------------------|--|
|                    | Native antigens for optimized antibody production    |
|                    | Positive controls in ELISA and other antibody assays |
| Comment:           | The tag is located at the N-terminal.                |
| Restrictions:      | For Research Use only                                |
|                    |  |

## Handling

| Concentration:   | 50 μg/mL  |
|------------------|---|
| Buffer:          | 50 mM Tris,8M Urea, pH 8.0.   |
| Storage:         | -80 °C  |
| Storage Comment: | Store at -80°C. Thaw on ice, aliquot to individual single-use tubes, and then re-freeze immediately. Only 2-3 freeze thaw cycles are recommended. |
