## Datasheet for ABIN2726803 NAP1L1 Protein (Transcript Variant 2) (Myc-DYKDDDDK Tag)

Overview

Image

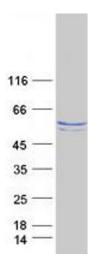

| Overview                      |  |
|-------------------------------|--|
| Quantity:                     | 20 µg  |
| Target:                       | NAP1L1   |
| Protein Characteristics:      | Transcript Variant 2   |
| Origin:                       | Human  |
| Source:                       | HEK-293 Cells  |
| Protein Type:                 | Recombinant  |
| Purification tag / Conjugate: | This NAP1L1 protein is labelled with Myc-DYKDDDDK Tag.   |
| Application:                  | Antibody Production (AbP), Standard (STD)  |
| Product Details               |  |
| Characteristics:              | <ul> <li>Recombinant human NAP1L1 (transcript variant 2) protein expressed in HEK293 cells.</li> <li>Produced with end-sequenced ORF clone</li> </ul>  |
| Purity:                       | > 80 % as determined by SDS-PAGE and Coomassie blue staining   |
| Target Details                |  |
| Target:                       | NAP1L1   |
| Alternative Name:             | Nap1l1 (NAP1L1 Products)   |
| Background:                   | This gene encodes a member of the nucleosome assembly protein (NAP) family. This protein<br>participates in DNA replication and may play a role in modulating chromatin formation and<br>contribute to the regulation of cell proliferation. Alternative splicing results in multiple transcript<br>variants encoding different isoforms however, not all have been fully described. |

| Target Details      |   |
|---------------------|---|
| Molecular Weight:   | 45.2 kDa  |
| NCBI Accession:     | NP_004528   |
| Application Details |   |
| Application Notes:  | Recombinant human proteins can be used for:   |
|                     | Native antigens for optimized antibody production                                       |
|                     | Positive controls in ELISA and other antibody assays                                    |
| Comment:            | The tag is located at the C-terminal.   |
| Restrictions:       | For Research Use only   |
| Handling            |   |
| Concentration:      | 50 μg/mL  |
| Buffer:             | 25 mM Tris.HCl, pH 7.3, 100 mM glycine, 10 % glycerol.                                  |
| Storage:            | -80 °C  |
| Storage Comment:    | Store at -80°C. Thaw on ice, aliquot to individual single-use tubes, and then re-freeze |

immediately. Only 2-3 freeze thaw cycles are recommended.
