$\sim$				
	$ V \cap$	r\/I	19	٨

Overview	
Quantity:	20 μg
Target:	NDUFS2
Origin:	Human
Source:	HEK-293 Cells
Protein Type:	Recombinant
Purification tag / Conjugate:	This NDUFS2 protein is labelled with Myc-DYKDDDDK Tag.
Application:	Antibody Production (AbP), Standard (STD)
Product Details	
Characteristics:	<ul> <li>Recombinant human NDUFS2 protein expressed in HEK293 cells.</li> <li>Produced with end-sequenced ORF clone</li> </ul>
Purity:	> 80 % as determined by SDS-PAGE and Coomassie blue staining
Target Details	
Target:	NDUFS2
Alternative Name:	Ndufs2 (NDUFS2 Products)
Background:	The protein encoded by this gene is a core subunit of the mitochondrial membrane respiratory chain NADH dehydrogenase (complex I). Mammalian mitochondrial complex I is composed of at least 43 different subunits, 7 of which are encoded by the mitochondrial genome, and the rest are the products of nuclear genes. The iron-sulfur protein fraction of complex I is made up of 7 subunits, including this gene product. Complex I catalyzes the NADH oxidation with
	of 7 subunits, including this gene product. Complex I catalyzes the NADH oxidation with

### **Target Details**

concomitant ubiquinone reduction and proton ejection out of the mitochondria.	Mutations in
this gene are associated with mitochondrial complex I deficiency. Alternatively	spliced
transcript variants encoding different isoforms have been found for this gene.[p	provided by
RefSeq, Oct 2009]	

Molecular Weight: 49.1 kDa

NCBI Accession: NP\_004541

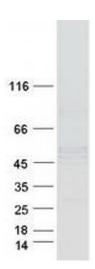

# **Application Details**

Application Notes:	Recombinant human proteins can be used for:
	Native antigens for optimized antibody production
	Positive controls in ELISA and other antibody assays
Comment:	The tag is located at the C-terminal.
Restrictions:	For Research Use only

# Handling

Concentration:	50 μg/mL
Buffer:	25 mM Tris.HCl, pH 7.3, 100 mM glycine, 10 % glycerol.
Storage:	-80 °C
Storage Comment:	Store at -80°C. Thaw on ice, aliquot to individual single-use tubes, and then re-freeze immediately. Only 2-3 freeze thaw cycles are recommended.
