| Overview                      |  |
|-------------------------------|--|
| Quantity:                     | 20 μg  |
| Target:                       | PARP3  |
| Protein Characteristics:      | Transcript Variant 2   |
| Origin:                       | Human  |
| Source:                       | HEK-293 Cells  |
| Protein Type:                 | Recombinant  |
| Purification tag / Conjugate: | This PARP3 protein is labelled with Myc-DYKDDDDK Tag.  |
| Application:                  | Antibody Production (AbP), Standard (STD)  |
| Product Details               |  |
| Characteristics:              | <ul> <li>Recombinant human PARP3 (transcript variant 2) protein expressed in HEK293 cells.</li> <li>Produced with end-sequenced ORF clone</li> </ul> |
| Purity:                       | > 80 % as determined by SDS-PAGE and Coomassie blue staining   |
| Target Details                |  |
| Target:                       | PARP3  |
| Alternative Name:             | Parp3 (PARP3 Products)   |
| Background:                   | The protein encoded by this gene belongs to the PARP family. These enzymes modify nuclear  |
|                               | proteins by poly-ADP-ribosylation, which is required for DNA repair, regulation of apoptosis, and  |
|                               | maintenance of genomic stability. This gene encodes the poly(ADP-ribosyl)transferase 3, which  |
|                               | is preferentially localized to the daughter centriole throughout the cell cycle. Alternatively   |
|                               |  |

### **Target Details**

|                   | spliced transcript variants encoding different isoforms have been identified. |
|-------------------|---|
| Molecular Weight: | 59.9 kDa  |
| NCBI Accession:   | NP_005476   |

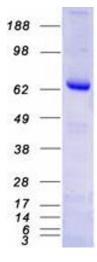

## **Application Details**

| Application Notes: | Recombinant human proteins can be used for:          |  |
|--------------------|--|--|
|                    | Native antigens for optimized antibody production    |  |
|                    | Positive controls in ELISA and other antibody assays |  |
| Comment:           | The tag is located at the C-terminal.                |  |
| Restrictions:      | For Research Use only                                |  |

### Handling

| Concentration:   | 50 μg/mL  |
|------------------|---|
| Buffer:          | 25 mM Tris.HCl, pH 7.3, 100 mM glycine, 10 % glycerol.  |
| Storage:         | -80 °C  |
| Storage Comment: | Store at -80°C. Thaw on ice, aliquot to individual single-use tubes, and then re-freeze immediately. Only 2-3 freeze thaw cycles are recommended. |
