|----|-----|---|---|---|
|    |     |   |   |   |

| Quantity:                     | 20 μg   |
|-------------------------------|---|
| Target:                       | PUS3  |
| Origin:                       | Human   |
| Source:                       | HEK-293 Cells   |
| Protein Type:                 | Recombinant   |
| Purification tag / Conjugate: | This PUS3 protein is labelled with Myc-DYKDDDDK Tag.  |
| Application:                  | Antibody Production (AbP), Standard (STD)   |
| Product Details               |   |
| Characteristics:              | <ul> <li>Recombinant human PUS3 protein expressed in HEK293 cells.</li> <li>Produced with end-sequenced ORF clone</li> </ul>  |
| Purity:                       | > 80 % as determined by SDS-PAGE and Coomassie blue staining  |
| Target Details                |   |
| Target:                       | PUS3  |
| Alternative Name:             | Pus3 (PUS3 Products)  |
| Background:                   | The protein encoded by this gene catalyzes the formation of tRNA pseudouridine from tRNA uridine at position 39 in the anticodon stem and loop of transfer RNAs. Two transcript variants encoding different isoforms have been found for this gene. |
| Molecular Weight:             | 55.4 kDa  |

# **Target Details**

# **Application Details**

| Application Notes: | Recombinant human proteins can be used for:          |  |
|--------------------|--|--|
|                    | Native antigens for optimized antibody production    |  |
|                    | Positive controls in ELISA and other antibody assays |  |
| Comment:           | The tag is located at the C-terminal.                |  |
| Restrictions:      | For Research Use only                                |  |

# Handling

| Concentration:   | 50 μg/mL  |  |
|------------------|---|--|
| Buffer:          | 25 mM Tris.HCl, pH 7.3, 100 mM glycine, 10 % glycerol.  |  |
| Storage:         | -80 °C  |  |
| Storage Comment: | Store at -80°C. Thaw on ice, aliquot to individual single-use tubes, and then re-freeze immediately. Only 2-3 freeze thaw cycles are recommended. |  |
