## Overview

|                      |                            |
|----------------------|----------------------------|
| Quantity:            | 0.1 mL                     |
| Target:              | Cwc27                      |
| Binding Specificity: | AA 145-472                 |
| Reactivity:          | Human                      |
| Host:                | Mouse                      |
| Clonality:           | Monoclonal                 |
| Application:         | Immunohistochemistry (IHC) |

## Product Details

|               |                                                                                                                       |
|---------------|-----------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | Human recombinant protein fragment corresponding to amino acids 145-472 of human CWC27(NP_005860) produced in E.coli. |
| Clone:        | OTI2D1                                                                                                                |
| Isotype:      | IgG1                                                                                                                  |
| Purification: | Purified from mouse ascites fluids by affinity chromatography                                                         |

## Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | Cwc27                                    |
| Alternative Name: | CWC27 ( <a href="#">Cwc27 Products</a> ) |
| Molecular Weight: | 53.7 kDa                                 |
| NCBI Accession:   | <a href="#">NM_005869</a>                |

Target Details

|           |                                                |
|-----------|------------------------------------------------|
| HGNC:     | 10283                                          |
| Pathways: | <a href="#">SARS-CoV-2 Protein Interactome</a> |

Application Details

|                    |                       |
|--------------------|-----------------------|
| Application Notes: | IHC 1:150,            |
| Restrictions:      | For Research Use only |

Handling

|                |            |
|----------------|------------|
| Format:        | Liquid     |
| Concentration: | 1.00 mg/mL |
