Target Details

Target:	SPINT1
Alternative Name:	Spint1,hai1 (SPINT1 Products)
Background:	<p>The protein encoded by this gene is a member of the Kunitz family of serine protease inhibitors. The protein is a potent inhibitor specific for HGF activator and is thought to be involved in the regulation of the proteolytic activation of HGF in injured tissues. Alternative splicing results in multiple variants encoding different isoforms.</p>
