Datasheet for ABIN2733529 TGIF1 Protein (His tag)

Image

Overview

Quantity:	50 µg
Target:	TGIF1
Origin:	Human
Source:	Escherichia coli (E. coli)
Protein Type:	Recombinant
Purification tag / Conjugate:	This TGIF1 protein is labelled with His tag.
Application:	Antibody Production (AbP), Standard (STD)
Product Details	
Characteristics:	 Recombinant human TGIF1 (full length, N-term HIS tag, transcript variant 3) protein expressed in E. coli. Produced with end-sequenced ORF clone
Purity:	> 80 % as determined by SDS-PAGE and Coomassie blue staining
Target Details	
Target:	TGIF1
Alternative Name:	Tgif1 (TGIF1 Products)
Background:	The protein encoded by this gene is a member of the three-amino acid loop extension (TALE) superclass of atypical homeodomains. TALE homeobox proteins are highly conserved transcription regulators. This particular homeodomain binds to a previously characterized retinoid X receptor responsive element from the cellular retinol-binding protein II promoter. In

Target Details

	addition to its role in inhibiting 9-cis-retinoic acid-dependent RXR alpha transcription activation
	of the retinoic acid responsive element, the protein is an active transcriptional co-repressor of
	SMAD2 and may participate in the transmission of nuclear signals during development and in
	the adult. Mutations in this gene are associated with holoprosencephaly type 4, which is a
	structural anomaly of the brain. Alternative splicing has been observed at this locus and
	multiple splice variants encoding distinct isoforms are described.
Molecular Weight:	29.6 kDa
NCBI Accession:	NP_775300
Pathways:	Retinoic Acid Receptor Signaling Pathway, Chromatin Binding, Tube Formation
Application Details	
Application Notes:	Recombinant human proteins can be used for:
	Native antigens for optimized antibody production
	Positive controls in ELISA and other antibody assays
Comment:	The tag is located at the N-terminal.
Restrictions:	For Research Use only
Handling	
Concentration:	50 μg/mL
Buffer:	25 mM Tris, pH 8.0, 150 mM NaCl, 10 % glycerol. Store at -80C. Avoid repeated freeze-thaw
	cycles. Stable for at least 3 months from receipt of products under proper storage and handling
	conditions.
Storage:	-80 °C
Storage Comment:	Store at -80°C. Thaw on ice, aliquot to individual single-use tubes, and then re-freeze
	immediately. Only 2-3 freeze thaw cycles are recommended.
