## Overview

|                      |                                                                                                                                                                       |
|----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                                                                                                |
| Target:              | LTB                                                                                                                                                                   |
| Binding Specificity: | C-Term                                                                                                                                                                |
| Reactivity:          | Human, Pig                                                                                                                                                            |
| Host:                | Rabbit                                                                                                                                                                |
| Clonality:           | Polyclonal                                                                                                                                                            |
| Conjugate:           | This LTB antibody is un-conjugated                                                                                                                                    |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Immunofluorescence (IF),<br>Immunocytochemistry (ICC), Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)) |

## Product Details

|               |                                                                                                                                                     |
|---------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | KLH-conjugated synthetic peptide encompassing a sequence within the C-terminal region of human LT beta.<br><br>Type of Immunogen: Synthetic peptide |
| Specificity:  | Recognizes endogenous levels of LT beta protein.                                                                                                    |
| Purification: | Immunoaffinity purified                                                                                                                             |

## Target Details

|                   |                                                         |
|-------------------|---------------------------------------------------------|
| Target:           | LTB                                                     |
| Alternative Name: | Lymphotoxin-beta / LTB ( <a href="#">LTB Products</a> ) |

## Target Details

|             |                                                                                                                                             |
|-------------|---------------------------------------------------------------------------------------------------------------------------------------------|
| Background: | Name/Gene ID: LTB<br>Family: TNF<br><br>Synonyms: LTB, LT-beta, p33, LTbeta, Lymphotoxin-beta, Tumor necrosis factor C, TNF-C, TNFSF3, TNFC |
|-------------|---------------------------------------------------------------------------------------------------------------------------------------------|

|          |      |
|----------|------|
| Gene ID: | 4050 |
|----------|------|

|           |                                     |
|-----------|-------------------------------------|
| Pathways: | <a href="#">NF-kappaB Signaling</a> |
|-----------|-------------------------------------|

## Application Details

|                    |                                                                                    |
|--------------------|------------------------------------------------------------------------------------|
| Application Notes: | Approved: ICC (1:100 - 1:500), IF, IHC, IHC-P (1:100 - 1:200), WB (1:500 - 1:1000) |
|--------------------|------------------------------------------------------------------------------------|

|          |                                   |
|----------|-----------------------------------|
| Comment: | Target Species of Antibody: Human |
|----------|-----------------------------------|

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

|         |        |
|---------|--------|
| Format: | Liquid |
|---------|--------|

|                |              |
|----------------|--------------|
| Concentration: | Lot specific |
|----------------|--------------|

|         |                                                  |
|---------|--------------------------------------------------|
| Buffer: | PBS, pH 7.3, 0.01 % sodium azide, 30 % glycerol. |
|---------|--------------------------------------------------|

|               |              |
|---------------|--------------|
| Preservative: | Sodium azide |
|---------------|--------------|

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
|--------------------|------------------------------------------------------------------------------------------------------------------------|

|                  |                                      |
|------------------|--------------------------------------|
| Handling Advice: | Aliquot to avoid freeze/thaw cycles. |
|------------------|--------------------------------------|

|          |        |
|----------|--------|
| Storage: | -20 °C |
|----------|--------|

|                  |                                                      |
|------------------|------------------------------------------------------|
| Storage Comment: | Store at -20°C. Aliquot to avoid freeze/thaw cycles. |
|------------------|------------------------------------------------------|
