

Datasheet for ABIN2746772

**anti-IFI27 antibody (Isoform 2, Mitochondrial, N-Term)**[Go to Product page](#)

## Overview

|                      |                                                                                                                                           |
|----------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µg                                                                                                                                    |
| Target:              | IFI27                                                                                                                                     |
| Binding Specificity: | AA 1-50, Isoform 2, Mitochondrial, N-Term                                                                                                 |
| Reactivity:          | Human, Monkey                                                                                                                             |
| Host:                | Rabbit                                                                                                                                    |
| Clonality:           | Polyclonal                                                                                                                                |
| Application:         | ELISA, Western Blotting (WB), Immunohistochemistry (IHC), Immunoprecipitation (IP),<br>Immunocytochemistry (ICC), Immunofluorescence (IF) |

## Product Details

|               |                                                                                                                                |
|---------------|--------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:    | Synthetic peptide taken within amino acid region 1-50 on human Interferon alpha-inducible protein 27, mitochondrial isoform 2. |
| Isotype:      | IgG                                                                                                                            |
| Purification: | Affinity Purified                                                                                                              |

## Target Details

|                   |                                                                                                                                                                                                                                                                                                                                                                                     |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | IFI27                                                                                                                                                                                                                                                                                                                                                                               |
| Alternative Name: | IFI27 ( <a href="#">IFI27 Products</a> )                                                                                                                                                                                                                                                                                                                                            |
| Pathways:         | <a href="#">Positive Regulation of Peptide Hormone Secretion</a> , <a href="#">Negative Regulation of Hormone Secretion</a> , <a href="#">Sensory Perception of Sound</a> , <a href="#">Mitotic G1-G1/S Phases</a> , <a href="#">DNA Replication</a> , <a href="#">Positive Regulation of Endopeptidase Activity</a> , <a href="#">Synthesis of DNA</a> , <a href="#">Autophagy</a> |

Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

Handling

|                |                 |
|----------------|-----------------|
| Format:        | Liquid          |
| Concentration: | 0.50-0.75 µg/µL |
