## Overview

|                      |                                                                                                                                           |
|----------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µg                                                                                                                                    |
| Target:              | TSHB                                                                                                                                      |
| Binding Specificity: | N-Term                                                                                                                                    |
| Reactivity:          | Human, Mouse, Rat                                                                                                                         |
| Host:                | Rabbit                                                                                                                                    |
| Clonality:           | Polyclonal                                                                                                                                |
| Conjugate:           | This TSHB antibody is un-conjugated                                                                                                       |
| Application:         | ELISA, Western Blotting (WB), Immunohistochemistry (IHC), Immunofluorescence (IF),<br>Immunocytochemistry (ICC), Confocal Microscopy (CM) |

## Product Details

|               |                                                                                                |
|---------------|------------------------------------------------------------------------------------------------|
| Immunogen:    | Synthetic peptide corresponding to unique amino acid sequence on human TSH beta chain protein. |
| Isotype:      | IgG                                                                                            |
| Purification: | Affinity Purified                                                                              |

## Target Details

|                   |                                            |
|-------------------|--------------------------------------------|
| Target:           | TSHB                                       |
| Alternative Name: | TSH beta ( <a href="#">TSHB Products</a> ) |
| Target Type:      | Hormone                                    |

### Target Details

|           |                                                                                        |
|-----------|----------------------------------------------------------------------------------------|
| UniProt:  | <a href="#">P01222</a>                                                                 |
| Pathways: | <a href="#">Thyroid Hormone Synthesis</a> , <a href="#">Peptide Hormone Metabolism</a> |

### Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Restrictions:      | For Research Use only                                              |

### Handling

|                |                 |
|----------------|-----------------|
| Format:        | Liquid          |
| Concentration: | 0.63-0.69 µg/µL |
