**anti-TNFRSF12A antibody (PE)**[Go to Product page](#)**1** Image**3** Publications

## Overview

Quantity:	0.1 mg
Target:	TNFRSF12A
Reactivity:	Human, Mouse
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This TNFRSF12A antibody is conjugated to PE
Application:	Flow Cytometry (FACS)

## Product Details

Immunogen:	human CD266-transfected P815 cells
Clone:	ITEM-4
Isotype:	IgG2b
Specificity:	The mouse monoclonal antibody ITEM-4 recognizes an extracellular epitope of CD266 / TWEAK R, a TNFR superfamily receptor for CD255 / TWEAK, a TNF-like weak inducer of apoptosis.
Cross-Reactivity (Details):	Human, Mouse
Purification:	Purified antibody is conjugated with R-phycoerythrin (PE) under optimum conditions. Unconjugated antibody and free fluorochrome are removed by size-exclusion chromatography.

## Target Details

Target:	TNFRSF12A
---------	-----------

## Target Details

Alternative Name:	CD266 / TWEAK R ( <a href="#">TNFRSF12A Products</a> )
Background:	TNF receptor superfamily member 12A,CD266 / TWEAK R (TNFRSF12A), also known as FN14 (fibroblast growth factor-inducible 14) is a receptor for CD255 / TWEAK, the TNF-like weak inducer of apoptosis. CD266 is expressed on endothelial cells, as well as on some cancer tissues, and plays a role in CD255-induced endothelial cell migration, proliferation, and angiogenesis. The CD255-CD266 interaction, or antibody-mediated triggering of CD266 is also able to induce apoptosis and necrosis in CD266-positive cells (including tumor cells), which might have therapeutic potential.,TWEAKR, FN14, TNFRSF12A
Gene ID:	51330
UniProt:	<a href="#">Q9NP84</a>
Pathways:	<a href="#">Apoptosis</a> , <a href="#">Regulation of Cell Size</a>

## Application Details

Application Notes:	Flow cytometry: Recommended dilution: 2-4 µg/mL.
Comment:	The purified antibody is conjugated with R-Phycoerythrin (PE) under optimum conditions. The conjugate is purified by size-exclusion chromatography.
Restrictions:	For Research Use only

## Handling

Concentration:	0.1 mg/mL
Buffer:	Stabilizing phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide
Preservative:	Sodium azide
Precaution of Use:	This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.
Storage:	4 °C
Storage Comment:	Store at 2-8°C. Protect from prolonged exposure to light. Do not freeze.
