Datasheet for ABIN2749352  
**BACE2 B Protein (AA 350-400)**

### Overview

Quantity:	5 applications
Target:	BACE2 B
Protein Characteristics:	AA 350-400
Origin:	Human, Mouse, Rat
Source:	Escherichia coli (E. coli)
Protein Type:	Synthetic
Application:	Positive Control (PC), Western Blotting (WB)

### Product Details

Purpose:	Purified Protein in ready-to-use SDS sample buffer.
Characteristics:	Synthetic peptide taken within amino acid region 350-400 on human BACE2B protein
Purification:	Synthetic peptide

### Target Details

Target:	BACE2 B
Alternative Name:	BACE2 B ( <a href="#">BACE2 B Products</a> )
UniProt:	<a href="#">Q9Y5Z0</a>

### Application Details

Restrictions:	For Research Use only
---------------	-----------------------

## Handling

---

Buffer: For 5 applications, volume varies from 100-200  $\mu$ L in reduced SDS-PAGE sample buffer.

---

Storage: -20 °C

---

Storage Comment: -20 °C for long term storage
