

Datasheet for ABIN2750081

**anti-MSTN antibody (AA 325-375) (FITC)**[Go to Product page](#)

## Overview

|                      |                                                                                    |
|----------------------|------------------------------------------------------------------------------------|
| Quantity:            | 100 µg                                                                             |
| Target:              | MSTN                                                                               |
| Binding Specificity: | AA 325-375                                                                         |
| Reactivity:          | Human                                                                              |
| Host:                | Rabbit                                                                             |
| Clonality:           | Polyclonal                                                                         |
| Conjugate:           | This MSTN antibody is conjugated to FITC                                           |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), ELISA, Immunoprecipitation (IP) |

## Product Details

|               |                                                                              |
|---------------|------------------------------------------------------------------------------|
| Immunogen:    | Synthetic peptide taken within amino acid region 325-375 on human Myostatin. |
| Isotype:      | IgG                                                                          |
| Purification: | Affinity Purified                                                            |

## Target Details

|                   |                                                    |
|-------------------|----------------------------------------------------|
| Target:           | MSTN                                               |
| Alternative Name: | GDF8 / Myostatin ( <a href="#">MSTN Products</a> ) |
| UniProt:          | <a href="#">Q53S46</a>                             |

Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

Handling

|         |        |
|---------|--------|
| Format: | Liquid |
|---------|--------|

|                |           |
|----------------|-----------|
| Concentration: | 0.5 µg/µL |
|----------------|-----------|
