## Overview

|                      |                                                                                    |
|----------------------|------------------------------------------------------------------------------------|
| Quantity:            | 100 µg                                                                             |
| Target:              | GZMB                                                                               |
| Binding Specificity: | AA 1-50, N-Term                                                                    |
| Reactivity:          | Human, Monkey                                                                      |
| Host:                | Rabbit                                                                             |
| Clonality:           | Polyclonal                                                                         |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), ELISA, Immunoprecipitation (IP) |

## Product Details

|               |                                                                                               |
|---------------|-----------------------------------------------------------------------------------------------|
| Immunogen:    | Synthetic peptide taken within amino acid region 1-50 on human endogenous Granzyme B protein. |
| Isotype:      | IgG                                                                                           |
| Purification: | Affinity Purified                                                                             |

## Target Details

|                   |                                                         |
|-------------------|---------------------------------------------------------|
| Target:           | GZMB                                                    |
| Alternative Name: | Granzyme B ( <a href="#">GZMB Products</a> )            |
| UniProt:          | <a href="#">P10144</a>                                  |
| Pathways:         | <a href="#">Apoptosis, Caspase Cascade in Apoptosis</a> |

Application Details

---

Restrictions: For Research Use only

Handling

---

Format: Liquid

---

Concentration: 0.52 µg/µL
