## Overview

|                      |                                                        |
|----------------------|--------------------------------------------------------|
| Quantity:            | 100 µg                                                 |
| Target:              | MINPP1                                                 |
| Binding Specificity: | AA 1-100                                               |
| Reactivity:          | Human, Rat, Mouse                                      |
| Host:                | Rabbit                                                 |
| Clonality:           | Polyclonal                                             |
| Application:         | ELISA, Western Blotting (WB), Immunoprecipitation (IP) |

## Product Details

|               |                                                                              |
|---------------|------------------------------------------------------------------------------|
| Immunogen:    | Synthetic peptide taken within amino acid region 1-100 on rat MINPP1 protein |
| Isotype:      | IgG                                                                          |
| Purification: | Affinity Purified                                                            |

## Target Details

|                   |                                            |
|-------------------|--------------------------------------------|
| Target:           | MINPP1                                     |
| Alternative Name: | MINPP1 ( <a href="#">MINPP1 Products</a> ) |
| UniProt:          | <a href="#">Q9UNW1</a>                     |

## Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

---

Format: Liquid

---

Concentration: 0.51-0.62 µg/µL

## Publications

---
