## Overview

|                      |                                                                       |
|----------------------|-----------------------------------------------------------------------|
| Quantity:            | 100 µg                                                                |
| Target:              | PGAP3                                                                 |
| Binding Specificity: | AA 220-270, C-Term                                                    |
| Reactivity:          | Human                                                                 |
| Host:                | Rabbit                                                                |
| Clonality:           | Polyclonal                                                            |
| Conjugate:           | This PGAP3 antibody is conjugated to FITC                             |
| Application:         | Western Blotting (WB), ELISA, Dot Blot (DB), Immunoprecipitation (IP) |

## Product Details

|               |                                                                                  |
|---------------|----------------------------------------------------------------------------------|
| Immunogen:    | Synthetic peptide taken within amino acid region 220-270 on human PGAP3 protein. |
| Isotype:      | IgG                                                                              |
| Purification: | Affinity Purified                                                                |

## Target Details

|                   |                                            |
|-------------------|--------------------------------------------|
| Target:           | PGAP3                                      |
| Alternative Name: | PGAP3 ( <a href="#">PGAP3 Products</a> )   |
| UniProt:          | <a href="#">Q96FM1</a>                     |
| Pathways:         | <a href="#">Inositol Metabolic Process</a> |

Application Details

Restrictions: For Research Use only

Handling

Format: Liquid

Concentration: 0.50-0.75 µg/µL
