Datasheet for ABIN2751071  
**Phantom (PHM) Protein**

### Overview

Quantity:	5 applications
Target:	Phantom (PHM)
Origin:	Drosophila melanogaster
Source:	Escherichia coli (E. coli)
Protein Type:	Recombinant
Application:	Positive Control (PC), Western Blotting (WB)

### Product Details

Purpose:	Purified Protein in ready-to-use SDS sample buffer.
Purification:	Purified Protein

### Target Details

Target:	Phantom (PHM)
Alternative Name:	Phantom ( <a href="#">PHM Products</a> )
UniProt:	<a href="#">Q9VWR5</a>
Pathways:	<a href="#">Metabolism of Steroid Hormones and Vitamin D</a>

### Application Details

Restrictions:	For Research Use only
---------------	-----------------------

## Handling

---

Buffer: For 5 applications, volume varies from 100-200  $\mu$ L in reduced SDS-PAGE sample buffer.

---

Storage: -20 °C

---

Storage Comment: -20 °C for long term storage
