

## Datasheet for ABIN2782786

# anti-NPTN antibody (Middle Region)

1 Image

# Overview

| Quantity:             | 100 μL                                                                                                                         |
|-----------------------|--------------------------------------------------------------------------------------------------------------------------------|
| Target:               | NPTN                                                                                                                           |
| Binding Specificity:  | Middle Region                                                                                                                  |
| Reactivity:           | Human, Mouse, Rat, Dog, Rabbit, Cow, Guinea Pig, Horse, Zebrafish (Danio rerio)                                                |
| Host:                 | Rabbit                                                                                                                         |
| Clonality:            | Polyclonal                                                                                                                     |
| Conjugate:            | This NPTN antibody is un-conjugated                                                                                            |
| Application:          | Western Blotting (WB)                                                                                                          |
| Product Details       |                                                                                                                                |
| Immunogen:            | The immunogen is a synthetic peptide directed towards the middle region of human NPTN                                          |
| Sequence:             | SAPKANATIE VKAAPDITGH KRSENKNEGQ DATMYCKSVG YPHPDWIWRK                                                                         |
| Predicted Reactivity: | Cow: 100%, Dog: 100%, Guinea Pig: 100%, Horse: 100%, Human: 100%, Mouse: 100%, Rabbit: 100%, Rat: 100%, Zebrafish: 82%         |
| Characteristics:      | This is a rabbit polyclonal antibody against NPTN. It was validated on Western Blot using a cell lysate as a positive control. |
| Purification:         | Affinity Purified                                                                                                              |
| Target Details        |                                                                                                                                |
| Target:               | NPTN                                                                                                                           |

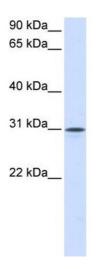

### Target Details

| Alternative Name:   | NDTN (NDTN Products)                                                                                 |
|---------------------|------------------------------------------------------------------------------------------------------|
| Alternative Name:   | NPTN (NPTN Products)                                                                                 |
| Background:         | Neuroplastin is a type I transmembrane protein belonging to the Ig superfamily. The protein is       |
|                     | believed to be involved in cell-cell interactions or cell-substrate interactions. The alpha and beta |

|                     | Alias Symbols: DKFZp686L2477, GP55, GP65, MGC102805, SDFR1, SDR1, np55, np65                         |
|                     | Protein Interaction Partner: UBC, Htt, VMA21, NIT2, UBXN1, NDUFV2, SLC25A5, FBXO6, SURF2,            |
|                     | Protein Size: 282                                                                                    |
| Molecular Weight:   | 29 kDa                                                                                               |
| Gene ID:            | 27020                                                                                                |
| NCBI Accession:     | NM_017455, NP_059429                                                                                 |
| UniProt:            | Q9Y639                                                                                               |
| Pathways:           | Regulation of long-term Neuronal Synaptic Plasticity                                                 |
| Application Details |                                                                                                      |
| Application Notes:  | Optimal working dilutions should be determined experimentally by the investigator.                   |
| Comment:            | Antigen size: 282 AA                                                                                 |
| Restrictions:       | For Research Use only                                                                                |
| Handling            |                                                                                                      |
| Format:             | Liquid                                                                                               |
| Concentration:      | Lot specific                                                                                         |
| Buffer:             | Liquid. Purified antibody supplied in 1x PBS buffer with 0.09 % (w/v) sodium azide and 2 %           |
|                     | sucrose.                                                                                             |
| Preservative:       | Sodium azide                                                                                         |
| Precaution of Use:  | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which                        |
|                     | should be handled by trained staff only.                                                             |
| Handling Advice:    | Avoid repeated freeze-thaw cycles.                                                                   |
|                     |                                                                                                      |

### Handling

| Storage Comment: For short term use, store at 2-8°C up to 1 week. For long term storage, store at -20°C aliquots to prevent freeze-thaw cycles. | C in small |
