Target Details

Alternative Name:	LCA5 (LCA5 Products)
Background:	LCA5 is a protein that is thought to be involved in centrosomal or ciliary functions. Mutations in
	this gene cause Leber congenital amaurosis type V. This gene encodes a protein that is thought
	to be involved in centrosomal or ciliary functions. Mutations in this gene cause Leber congenital
	amaurosis type V. Alternative splicing results in two transcript variants.
