

Datasheet for ABIN2788452

**anti-FYTTD1 antibody (Middle Region)**[Go to Product page](#)**1** Image

## Overview

|                      |                                                             |
|----------------------|-------------------------------------------------------------|
| Quantity:            | 100 µL                                                      |
| Target:              | FYTTD1                                                      |
| Binding Specificity: | Middle Region                                               |
| Reactivity:          | Human, Rat, Mouse, Horse, Cow, Dog, Pig, Rabbit, Guinea Pig |
| Host:                | Rabbit                                                      |
| Clonality:           | Polyclonal                                                  |
| Conjugate:           | This FYTTD1 antibody is un-conjugated                       |
| Application:         | Western Blotting (WB)                                       |

## Product Details

|                       |                                                                                                           |
|-----------------------|-----------------------------------------------------------------------------------------------------------|
| Immunogen:            | The immunogen is a synthetic peptide directed towards the middle region of human FYTTD1                   |
| Sequence:             | PSQLSRKNNI PANFTRSGNK LNHQKDTRQA TFLFRRGLKV QAQLNTEQLL                                                    |
| Predicted Reactivity: | Cow: 93%, Dog: 93%, Guinea Pig: 92%, Horse: 93%, Human: 100%, Mouse: 93%, Pig: 93%, Rabbit: 93%, Rat: 93% |
| Characteristics:      | This is a rabbit polyclonal antibody against FYTTD1. It was validated on Western Blot.                    |
| Purification:         | Affinity Purified                                                                                         |

## Target Details

|                   |                                            |
|-------------------|--------------------------------------------|
| Target:           | FYTTD1                                     |
| Alternative Name: | FYTTD1 ( <a href="#">FYTTD1 Products</a> ) |

## Target Details

|                   |                                                                                                                                                                                                                                                                              |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Background:       | The function remains unknown.<br>Alias Symbols: DKFZp761B1514, UIF<br>Protein Interaction Partner: UBC, GPRASP2, SUZ12, RNF2, EIF4A3, MAGOH, TUBB, FYTDD1, ANP32E, HTATSF1, SERBP1, SUPT16H, STRAP, NXF1, DDX39B, SSRP1, SET, NCL, C1QBP, SHBG, TSPAN7,<br>Protein Size: 227 |

| UniProt:          | <a href="#">Q96QD9</a>                                                                                                                                                                                                                                                       |

## Application Details

|                    |                                                                                    |
|--------------------|------------------------------------------------------------------------------------|
| Application Notes: | Optimal working dilutions should be determined experimentally by the investigator. |
| Comment:           | Antigen size: 227 AA                                                               |
| Restrictions:      | For Research Use only                                                              |

## Handling

|                    |                                                                                                                                         |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                                  |
| Concentration:     | Lot specific                                                                                                                            |
| Buffer:            | Liquid. Purified antibody supplied in 1x PBS buffer with 0.09 % (w/v) sodium azide and 2 % sucrose.                                     |
| Preservative:      | Sodium azide                                                                                                                            |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.                  |
| Handling Advice:   | Avoid repeated freeze-thaw cycles.                                                                                                      |
| Storage:           | -20 °C                                                                                                                                  |
| Storage Comment:   | For short term use, store at 2-8°C up to 1 week. For long term storage, store at -20°C in small aliquots to prevent freeze-thaw cycles. |

Rabbit Anti-FYTTD1 Antibody  
Catalog Number: ARP60447  
Lot Number: QC31602  
Lane: 721\_B Cell Lysate

Antibody Titration: 1.0µg/ml  
Gel Concentration: 12%

Western Blotting
