## Overview

|                      |                                       |
|----------------------|---------------------------------------|
| Quantity:            | 100 µL                                |
| Target:              | CCDC61                                |
| Binding Specificity: | C-Term                                |
| Reactivity:          | Human                                 |
| Host:                | Rabbit                                |
| Clonality:           | Polyclonal                            |
| Conjugate:           | This CCDC61 antibody is un-conjugated |
| Application:         | Western Blotting (WB)                 |

## Product Details

|                       |                                                                                             |
|-----------------------|---------------------------------------------------------------------------------------------|
| Immunogen:            | The immunogen is a synthetic peptide directed towards the C-terminal region of human CCDC61 |
| Sequence:             | RGKPPSPTPW SGSNMKSPPV ERSHHQKSLA NSGGWVPIKE YSSEHQAAADM                                     |
| Predicted Reactivity: | Human: 100%                                                                                 |
| Characteristics:      | This is a rabbit polyclonal antibody against CCDC61. It was validated on Western Blot.      |
| Purification:         | Affinity Purified                                                                           |

## Target Details

|                   |                                            |
|-------------------|--------------------------------------------|
| Target:           | CCDC61                                     |
| Alternative Name: | CCDC61 ( <a href="#">CCDC61 Products</a> ) |

## Target Details

|                   |                                                             |
|-------------------|-------------------------------------------------------------|
| Background:       | Protein Size: 332                                           |
| Molecular Weight: | 36 kDa                                                      |
| Gene ID:          | 729440                                                      |
| NCBI Accession:   | <a href="#">NM_001267723</a> , <a href="#">NP_001254652</a> |
| UniProt:          | <a href="#">Q9Y6R9</a>                                      |

## Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

|                    |                                                                                                                                         |
|--------------------|-----------------------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                                  |
| Concentration:     | 1 mg/mL                                                                                                                                 |
| Buffer:            | Liquid. Purified antibody supplied in 1x PBS buffer with 0.09 % (w/v) sodium azide and 2 % sucrose.                                     |
| Preservative:      | Sodium azide                                                                                                                            |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.                  |
| Handling Advice:   | Avoid repeat freeze-thaw cycles.                                                                                                        |
| Storage:           | -20 °C                                                                                                                                  |
| Storage Comment:   | For short term use, store at 2-8°C up to 1 week. For long term storage, store at -20°C in small aliquots to prevent freeze-thaw cycles. |

Host: Rabbit  
Target Name: CCDC61  
Sample Tissue: HepG2 Cell Lysate  
Antibody Dilution: 1.0µg/ml

Western Blotting
