## Overview

|                      |                                                                          |
|----------------------|--------------------------------------------------------------------------|
| Quantity:            | 400 µL                                                                   |
| Target:              | FKBP10                                                                   |
| Binding Specificity: | AA 57-87, N-Term                                                         |
| Reactivity:          | Human                                                                    |
| Host:                | Rabbit                                                                   |
| Clonality:           | Polyclonal                                                               |
| Conjugate:           | This FKBP10 antibody is un-conjugated                                    |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Flow Cytometry (FACS) |

## Product Details

|            |                                                                                                                                                                        |
|------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:   | Rabbit Anti-Human FKBP10 (N-term) Antibody                                                                                                                             |
| Immunogen: | This FKBP10 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 57-87 amino acids from the N-terminal region of human FKBP10. |
| Isotype:   | Ig Fraction                                                                                                                                                            |

## Target Details

|                   |                                                                                                                                                                                                                 |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target:           | FKBP10                                                                                                                                                                                                          |
| Alternative Name: | FKBP10 ( <a href="#">FKBP10 Products</a> )                                                                                                                                                                      |
| Background:       | <p>Target Description: The protein belongs to the FKBP-type peptidyl-prolyl cis/trans isomerase family. It is located in endoplasmic reticulum and acts as molecular chaperones.</p> <p>Gene Symbol: FKBP10</p> |

## Target Details

|                   |                                                |
|-------------------|------------------------------------------------|
| Molecular Weight: | 64245 Da                                       |
| Gene ID:          | 60681                                          |
| UniProt:          | <a href="#">Q96AY3</a>                         |
| Pathways:         | <a href="#">SARS-CoV-2 Protein Interactome</a> |

## Application Details

|                    |                                                                                                                                                                                                                                                              |
|--------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Western Blot, Immunohistochemistry, Flow Cytometry<br>Recommended Dilutions<br>WB: 1:1000, IHC: 1:50-100, FC: 1:10-50Western blot analysis of FKBP10 Antibody (N-term)<br>.FITC-conjugated goat-anti-rabbit secondary antibodies were used for the analysis. |
| Restrictions:      | For Research Use only                                                                                                                                                                                                                                        |

## Handling

|                  |                                       |
|------------------|---------------------------------------|
| Format:          | Liquid                                |
| Concentration:   | 0.370 mg/mL                           |
| Storage:         | 4 °C,-20 °C                           |
| Storage Comment: | 2-8°C (short-term), -20°C (long-term) |
