## Overview

|                      |                                     |
|----------------------|-------------------------------------|
| Quantity:            | 400 µL                              |
| Target:              | NEK4                                |
| Binding Specificity: | AA 74-101, N-Term                   |
| Reactivity:          | Human, Mouse                        |
| Host:                | Rabbit                              |
| Clonality:           | Polyclonal                          |
| Conjugate:           | This NEK4 antibody is un-conjugated |
| Application:         | Western Blotting (WB)               |

## Product Details

|            |                                                                                                                                                                           |
|------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:   | Rabbit Anti-Mouse Nek4 (N-term) Antibody                                                                                                                                  |
| Immunogen: | This Mouse Nek4 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 74-101 amino acids from the N-terminal region of mouse Nek4. |
| Isotype:   | Ig Fraction                                                                                                                                                               |

## Target Details

|                   |                                                                                                 |
|-------------------|-------------------------------------------------------------------------------------------------|
| Target:           | NEK4                                                                                            |
| Alternative Name: | Nek4 ( <a href="#">NEK4 Products</a> )                                                          |
| Background:       | Target Description: Nek4 seems to act exclusively upon threonine residues.<br>Gene Symbol: Nek4 |

### Target Details

|                   |                        |
|-------------------|------------------------|
| Molecular Weight: | 88994 Da               |
| Gene ID:          | 23955                  |
| UniProt:          | <a href="#">Q9Z1J2</a> |

### Application Details

|                    |                                                                                   |
|--------------------|-----------------------------------------------------------------------------------|
| Application Notes: | Western Blot<br>Recommended Dilutions<br>WB: 1:1000Mouse Nek4 Antibody (N-term) . |
| Restrictions:      | For Research Use only                                                             |

### Handling

|                  |                                       |
|------------------|---------------------------------------|
| Format:          | Liquid                                |
| Concentration:   | 0.450 mg/mL                           |
| Storage:         | 4 °C,-20 °C                           |
| Storage Comment: | 2-8°C (short-term), -20°C (long-term) |
