

Datasheet for ABIN2798684
anti-OR2W5 antibody (C-Term)

[Go to Product page](#)

Overview

Quantity:	400 µL
Target:	OR2W5
Binding Specificity:	AA 283-311, C-Term
Reactivity:	Human
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This OR2W5 antibody is un-conjugated
Application:	Western Blotting (WB)

Product Details

Purpose:	Rabbit Anti-Human OR2W5 (C-term) Antibody
Immunogen:	This OR2W5 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 283-311 amino acids from the C-terminal region of human OR2W5.
Isotype:	Ig Fraction

Target Details

Target:	OR2W5
Alternative Name:	OR2W5 (OR2W5 Products)
Background:	Target Description: Olfactory receptors interact with odorant molecules in the nose, to initiate a neuronal response that triggers the perception of a smell. The olfactory receptor proteins are members of a large family of G-protein-coupled receptors (GPCR) arising from single coding-

Target Details

exon genes. Olfactory receptors share a 7-transmembrane domain structure with many neurotransmitter and hormone receptors and are responsible for the recognition and G protein-mediated transduction of odorant signals. The olfactory receptor gene family is the largest in the genome. The nomenclature assigned to the olfactory receptor genes and proteins for this organism is independent of other organisms. This olfactory receptor gene has a coding sequence that is comparable in length to other olfactory receptor genes, but it should be noted that a frameshift is present in the 3' coding region that disrupts the 7-transmembrane domain structure in the protein. It is unclear if the protein can function as an olfactory receptor or if an alternate function is served. For this reason, this gene has also been interpreted to be a pseudogene.

Gene Symbol: OR2W5

Molecular Weight:	35528 Da
Gene ID:	441932
UniProt:	A6NFC9

Application Details

Application Notes:	Western Blot Recommended Dilutions WB: 1:1000OR2W5 Antibody (C-term) .
Restrictions:	For Research Use only

Handling

Format:	Liquid
Concentration:	0.290 mg/mL
Storage:	4 °C,-20 °C
Storage Comment:	2-8°C (short-term), -20°C (long-term)
