## Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 400 µL                               |
| Target:              | PRDM8                                |
| Binding Specificity: | AA 75-102, N-Term                    |
| Reactivity:          | Human                                |
| Host:                | Rabbit                               |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This PRDM8 antibody is un-conjugated |
| Application:         | Western Blotting (WB)                |

## Product Details

|            |                                                                                                                                                                       |
|------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purpose:   | Rabbit Anti-Human PRDM8 (N-term) Antibody                                                                                                                             |
| Immunogen: | This PRDM8 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 75-102 amino acids from the N-terminal region of human PRDM8. |
| Isotype:   | Ig Fraction                                                                                                                                                           |

## Target Details

|                   |                                                                                                |
|-------------------|------------------------------------------------------------------------------------------------|
| Target:           | PRDM8                                                                                          |
| Alternative Name: | PRDM8 ( <a href="#">PRDM8 Products</a> )                                                       |
| Background:       | Target Description: PRDM8 may be involved in transcriptional regulation.<br>Gene Symbol: PRDM8 |

### Target Details

|                   |                        |
|-------------------|------------------------|
| Molecular Weight: | 71663 Da               |
| Gene ID:          | 56978                  |
| UniProt:          | <a href="#">Q9NQV8</a> |

### Application Details

|                    |                                                                              |
|--------------------|------------------------------------------------------------------------------|
| Application Notes: | Western Blot<br>Recommended Dilutions<br>WB: 1:1000PRDM8 Antibody (N-term) . |
| Restrictions:      | For Research Use only                                                        |

### Handling

|                  |                                       |
|------------------|---------------------------------------|
| Format:          | Liquid                                |
| Concentration:   | 0.350 mg/mL                           |
| Storage:         | 4 °C,-20 °C                           |
| Storage Comment: | 2-8°C (short-term), -20°C (long-term) |
