## **anti-Phospholipase C gamma 2 antibody (AA 645-750) (AbBy Fluor® 594)**

[Go to Product page](#)

### Overview

|                      |                                                                                                                                                       |
|----------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                                                                                |
| Target:              | Phospholipase C gamma 2 (PLCG2)                                                                                                                       |
| Binding Specificity: | AA 645-750                                                                                                                                            |
| Reactivity:          | Human, Rat                                                                                                                                            |
| Host:                | Rabbit                                                                                                                                                |
| Clonality:           | Polyclonal                                                                                                                                            |
| Conjugate:           | This Phospholipase C gamma 2 antibody is conjugated to AbBy Fluor® 594                                                                                |
| Application:         | Western Blotting (WB), Immunofluorescence (Cultured Cells) (IF (cc)), Immunofluorescence (Paraffin-embedded Sections) (IF (p)), Flow Cytometry (FACS) |

### Product Details

|                       |                                                                        |
|-----------------------|------------------------------------------------------------------------|
| Immunogen:            | KLH conjugated synthetic peptide derived from human PLCG 2/PLC gamma 2 |
| Isotype:              | IgG                                                                    |
| Specificity:          | This antibody may also recognize PLCG1 due to sequence similarity.     |
| Cross-Reactivity:     | Human, Rat                                                             |
| Predicted Reactivity: | Mouse,Dog,Cow,Pig,Horse,Rabbit                                         |
| Purification:         | Purified by Protein A.                                                 |

### Target Details

|         |                                 |
|---------|---------------------------------|
| Target: | Phospholipase C gamma 2 (PLCG2) |
|---------|---------------------------------|

## Target Details

|                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Alternative Name: | PLCG 2 ( <a href="#">PLCG2 Products</a> )                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Background:       | <p>Synonyms: FCAS3, APLAID, PLC-IV, PLC-gamma-2, 1-phosphatidylinositol 4,5-bisphosphate phosphodiesterase gamma-2, Phosphoinositide phospholipase C-gamma-2, Phospholipase C-IV, Phospholipase C-gamma-2, PLCG2</p> <p>Background: The production of the second messenger molecules diacylglycerol (DAG) and inositol 1,4,5-trisphosphate (IP3) is mediated by activated phosphatidylinositol-specific phospholipase C enzymes. It is a crucial enzyme in transmembrane signaling.</p> |
| Gene ID:          | 5336                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| UniProt:          | <a href="#">P16885</a>                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

## Application Details

|                    |                                                                              |
|--------------------|------------------------------------------------------------------------------|
| Application Notes: | FCM 1:20-100<br>IF(IHC-P) 1:50-200<br>IF(IHC-F) 1:50-200<br>IF(ICC) 1:50-200 |
| Restrictions:      | For Research Use only                                                        |

## Handling

|                    |                                                                                                                    |
|--------------------|--------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                             |
| Concentration:     | 1 µg/µL                                                                                                            |
| Buffer:            | Aqueous buffered solution containing 0.01M TBS ( pH 7.4) with 1 % BSA, 0.03 % Proclin300 and 50 % Glycerol.        |
| Preservative:      | ProClin                                                                                                            |
| Precaution of Use: | This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                             |
| Storage Comment:   | Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles.                                  |
| Expiry Date:       | 12 months                                                                                                          |
