Datasheet for ABIN2813123 anti-FANCM antibody (AA 831-930) (Alexa Fluor 594)

Overview

Quantity:	100 µL	
Target:	FANCM	
Binding Specificity:	AA 831-930	
Reactivity:	Human	
Host:	Rabbit	
Clonality:	Polyclonal	
Conjugate:	This FANCM antibody is conjugated to Alexa Fluor 594	
Application:	Immunofluorescence (Cultured Cells) (IF (cc)), Immunofluorescence (Paraffin-embedded Sections) (IF (p))	

Product Details

Immunogen:	KLH conjugated synthetic peptide derived from human FANCM
Isotype:	lgG
Predicted Reactivity:	Human
Purification:	Purified by Protein A.

Target Details

Target:	FANCM
Alternative Name:	FANCM (FANCM Products)
Background:	Synonyms: FAAP250, Fanconi anemia group M protein, Protein Hef ortholog,

	Background: Fanconi anemia (FA) is an autosomal recessive disorder characterized by bone
	marrow failure, birth defects and chromosomal instability. At the cellular level, FA is
	characterized by spontaneous chromosomal breakage and a unique hypersensitivity to DNA
	cross-linking agents. The thirteen FA proteins that have been characterized are important for
	regulating chromosomal stability and genome surveillance. Eight of these proteins, namely
	FANCA, FANCB, FANCC, FANCE, FANCF, FANCG, FANCL and FANCM, comprise the FA core
	complex, which catalyzes a key reaction in DNA repair: the monoubiquitination of FANCD2.
	FANCM (Fanconi anemia, complementation group M) is a member of the DEAD-box helicase
	family of proteins and contains a DEAH helicase domain and a nuclease domain. Localizing to
	chromatin fractions, FANCM is phosphorylated in a cell cycle-dependent manner and is
	believed to function as an anchor, recruiting the FA core complex to chromatin. Mutations in
	the gene encoding FANCM can lead to Fanconi anemia.
Gene ID:	57697
Pathways:	DNA Damage Repair
Application Details	
Application Details	
Application Notes:	IF(IHC-P) 1:50-200
	IF(IHC-F) 1:50-200
	IF(ICC) 1:50-200
Restrictions:	For Research Use only
Handling	
Format:	Liquid
Concentration:	1 μg/μL
Buffer:	Aqueous buffered solution containing 0.01M TBS (pH 7.4) with 1 % BSA, 0.03 % Proclin300 and
	50 % Glycerol.
Preservative:	ProClin
Precaution of Use:	This product contains ProClin: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be
	handled by trained staff only.
Storage:	-20 °C
Storage Comment:	Store at -20°C. Aliquot into multiple vials to avoid repeated freeze-thaw cycles.
