Datasheet for ABIN285039

anti-Triiodothyronine T3 antibody

1 Publication

Overview

Quantity:	1 mL
Target:	Triiodothyronine T3 (T3)
Reactivity:	Please inquire
Host:	Rabbit
Clonality:	Polyclonal
Conjugate:	This Triiodothyronine T3 antibody is un-conjugated
Application:	Please inquire

Product Details

Immunogen: Triiodothyronine antibody was raised in rabbit using triiodothyronine (T3)-BSA as the immunogen.

Target Details

Target:	Triiodothyronine T3 (T3)
Alternative Name:	Triiodothyronine (T3 Products)
Target Type:	Amino Acid
Background:	Triiodothyronine, C ₁₅ H ₁₂ I ₃ NO ₄ , also known as T3, is a thyroid hormone. It affects almost every physiological process in the body, including growth and development, metabolism, body temperature, and heart rate. Production of T3 and its prohormone thyroxine (T4) is activated by thyroid-stimulating hormone (TSH), which is released from the pituitary gland.

Application Details

Restrictions: For Research Use only

Handling

Format: Liquid

Concentration: Lot specific

Buffer: Neat serum with no preservatives.

Preservative: Without preservative

Handling Advice: Avoid repeated freeze/thaw cycles

Storage: -20 °C

Storage Comment: Store at 4 °C for short term storage. Aliquot and store at -20 °C for long term storage.
