## anti-MBP antibody

### 2 Images

[Go to Product page](#)

### Overview

Quantity:	100 µL
Target:	MBP
Reactivity:	Human, Rat, Mouse
Host:	Guinea Pig
Clonality:	Polyclonal
Conjugate:	This MBP antibody is un-conjugated
Application:	Western Blotting (WB), Immunohistochemistry (IHC)

### Product Details

Purification: antiserum

### Target Details

Target:	MBP
Alternative Name:	Myelin basic protein ( <a href="#">MBP Products</a> )
Background:	Synonyms: Myelin Basic Protein

### Application Details

Application Notes: Optimal working dilution should be determined by the investigator. It is not recommended to use this product in IP. This product is not tested in ICC yet.

Restrictions: For Research Use only

## Handling

Format: Liquid

Buffer: PBS

Handling Advice: Crude antisera are more robust than monoclonals. With anti-microbials added, they may be stored at 4 °C.

Serum does not contain active proteases, in fact, serum itself contains a powerful cocktail of protease inhibitors. Frozen storage (-20 °C), however, is preferable.

Storage: 4 °C/-20 °C

Storage Comment: Unlabeled antibodies are stable in this form without loss of quality at ambient temperatures for several weeks or even months. They can be stored at 4 °C for several years.
