Sheep anti-Human IgA (Secretory Component) Antibody

[Go to Product page](#)

Overview

Quantity:	1 mL
Target:	IgA
Binding Specificity:	Secretory Component
Reactivity:	Human
Host:	Sheep
Clonality:	Polyclonal
Application:	Western Blotting (WB), Immunodiffusion (ID), Ouchterlony Double Diffusion (ODD)

Product Details

Immunogen:	Human IgA antibody was raised in sheep using human secretory piece purified from human colostrum as the immunogen.
Characteristics:	Sheep anti Human IgA antibody Alternative Names: Polyclonal Human IgA antibody, Anti-Human IgA antibody, Immunoglobulin A antibody

Target Details

Target:	IgA
Abstract:	IgA Products
Target Type:	Antibody

Application Details

Application Notes: ODD: 10 uL antiserum vs 10 uL Milk, WB: 100 uL antiserum vs 10 uL Milk, Immunodiffusion: 16 uL antiserum/cm² in gel vs 5 uL Milk, dilutions: Neat - 1:15.

Restrictions: For Research Use only

Handling

Format: Liquid

Concentration: Lot specific

Buffer: Supplied as a liquid in GBS.

Storage: 4 °C
