

Datasheet for ABIN285446
anti-Digoxin antibody

[Go to Product page](#)

Overview

Quantity:	1 mL
Target:	Digoxin (DIG)
Reactivity:	Chemical
Host:	Goat
Clonality:	Polyclonal
Conjugate:	This Digoxin antibody is un-conjugated
Application:	Please inquire

Product Details

Immunogen:	Digoxin antibody was raised in goat using digoxin-BSA as the immunogen.
------------	---

Target Details

Target:	Digoxin (DIG)
Alternative Name:	Digoxin (DIG Products)
Target Type:	Chemical
Background:	Digoxin , also known as digitalis, is a purified cardiac glycoside extracted from the foxglove plant, Digitalis lanata. Digoxin is widely used in the treatment of various heart conditions, namely atrial fibrillation, atrial flutter and sometimes heart failure that cannot be controlled by other medication.

Application Details

Restrictions:	For Research Use only
---------------	-----------------------

Handling

Format:	Liquid
---------	--------

Concentration:	Lot specific
----------------	--------------

Buffer:	Defibrlnated plasma, no preservatives added.
---------	--

Preservative:	Without preservative
---------------	----------------------

Handling Advice:	Avoid repeated freeze/thaw cycles
------------------	-----------------------------------

Storage:	-20 °C
----------	--------

Storage Comment:	Store at 4 °C for short term storage. Aliquot and store at -20 °C for long term storage.
