

## Datasheet for ABIN285573 **anti-Morphine antibody**

[Go to Product page](#)

### Overview

|              |   |
|--------------|---|
| Quantity:    | 1 mL                                    |
| Target:      | Morphine                                |
| Reactivity:  | Please inquire                          |
| Host:        | Rabbit                                  |
| Clonality:   | Polyclonal                              |
| Conjugate:   | This Morphine antibody is un-conjugated |
| Application: | Please inquire                          |

### Product Details

Immunogen: Morphine antibody was raised in rabbit using morphine-hemisuccinate as the immunogen.

### Target Details

|              |  |
|--------------|--|
| Target:      | Morphine   |
| Abstract:    | <a href="#">Morphine Products</a>  |
| Target Type: | Chemical   |
| Background:  | Morphine is a potent opiate analgesic medication and is considered to be the prototypical opioid. Morphine is the most abundant alkaloid found in opium. |

### Application Details

|                    |  |
|--------------------|--|
| Application Notes: | Activity of each lot will vary. Please specify lot required when ordering. |
| Restrictions:      | For Research Use only  |

## Handling

---

|                  |  |
|------------------|--|
| Format:          | Liquid   |
| Concentration:   | Lot specific   |
| Buffer:          | Supplied as neat serum with no preservatives.  |
| Preservative:    | Without preservative   |
| Handling Advice: | Avoid repeated freeze/thaw cycles  |
| Storage:         | -20 °C   |
| Storage Comment: | Store at 4 °C for short term storage. Aliquot and store at -20 °C for long term storage. |
