## Overview

|                      |                       |
|----------------------|-----------------------|
| Quantity:            | 200 µg                |
| Target:              | Survivin (BIRC5)      |
| Binding Specificity: | AA 123-142, Cys0      |
| Reactivity:          | Human                 |
| Host:                | Rabbit                |
| Clonality:           | Polyclonal            |
| Application:         | Western Blotting (WB) |

## Product Details

|               |                                                  |
|---------------|--------------------------------------------------|
| Immunogen:    | 5-10 mg of > 70% pure peptide conjugated to KLH. |
| Isotype:      | IgG                                              |
| Purification: | Purified IgG                                     |

## Target Details

|                   |                                                                                                                    |
|-------------------|--------------------------------------------------------------------------------------------------------------------|
| Target:           | Survivin (BIRC5)                                                                                                   |
| Alternative Name: | Apoptosis Inhibitor Survivin ( <a href="#">BIRC5 Products</a> )                                                    |
| Pathways:         | <a href="#">Apoptosis</a> , <a href="#">Cell Division Cycle</a> , <a href="#">Nuclear Hormone Receptor Binding</a> |

## Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

---

|          |             |
|----------|-------------|
| Storage: | 4 °C,-20 °C |
|----------|-------------|

|                  |                                                                                                                                                         |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage Comment: | Store antibodies at 2-4°C before and at -20°C after rehydration. The product is stable for approximately 3-6 weeks after rehydration at -20°C or below. |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
