## **anti-KISS1 antibody (amidated) (Rhodamine)**

[Go to Product page](#)

### Overview

|                      |                                                |
|----------------------|------------------------------------------------|
| Quantity:            | 100 µL                                         |
| Target:              | KISS1                                          |
| Binding Specificity: | AA 45-54, amidated                             |
| Reactivity:          | Human                                          |
| Host:                | Rabbit                                         |
| Clonality:           | Polyclonal                                     |
| Conjugate:           | This KISS1 antibody is conjugated to Rhodamine |

### Product Details

|                  |                                                                                          |
|------------------|------------------------------------------------------------------------------------------|
| Isotype:         | IgG                                                                                      |
| Characteristics: | Full Name: Kisspeptin-10 / Metastin (45-54) amide (Human) Rhodamine Labeled Purified IgG |
| Purification:    | Purified IgG                                                                             |

### Target Details

|                   |                                                                  |
|-------------------|------------------------------------------------------------------|
| Target:           | KISS1                                                            |
| Alternative Name: | Kisspeptin-10 / Metastin ( <a href="#">KISS1 Products</a> )      |
| Pathways:         | <a href="#">Positive Regulation of Peptide Hormone Secretion</a> |

### Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

---

|                  |                                                                                                                                                                                                                                                                        |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Liquid                                                                                                                                                                                                                                                                 |
| Storage:         | 4 °C,-80 °C                                                                                                                                                                                                                                                            |
| Storage Comment: | Store at 2 to 4°C before hydration and at -70°C after rehydration. Most peptides are stable for approximately 3-6 month after rehydration. Typically, any peptide containing Tryptophane, Cystein and Methionine can be easily oxidized and are therefore less stable. |
