### Overview

|                      |                                                  |
|----------------------|--------------------------------------------------|
| Quantity:            | 100 µL                                           |
| Target:              | ENPP2                                            |
| Binding Specificity: | AA 369-391                                       |
| Reactivity:          | Human, Mouse                                     |
| Host:                | Rabbit                                           |
| Clonality:           | Polyclonal                                       |
| Conjugate:           | This ENPP2 antibody is conjugated to DyLight 647 |
| Application:         | Please inquire                                   |

### Product Details

|                  |                                                                                |
|------------------|--------------------------------------------------------------------------------|
| Isotype:         | IgG                                                                            |
| Characteristics: | Full Name: Autotaxin (369-391) (Human, Mouse) Dylight 647 Labeled Purified IgG |
| Purification:    | Purified IgG                                                                   |

### Target Details

|                   |           |
|-------------------|-----------|
| Target:           | ENPP2     |
| Alternative Name: | Autotaxin |

### Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

---

|                  |                                                                                                                                                                                                                                                                        |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Liquid                                                                                                                                                                                                                                                                 |
| Storage:         | 4 °C,-80 °C                                                                                                                                                                                                                                                            |
| Storage Comment: | Store at 2 to 4°C before hydration and at -70°C after rehydration. Most peptides are stable for approximately 3-6 month after rehydration. Typically, any peptide containing Tryptophane, Cystein and Methionine can be easily oxidized and are therefore less stable. |
