## Overview

|              |                                        |
|--------------|----------------------------------------|
| Quantity:    | 100 µL                                 |
| Target:      | PPY                                    |
| Reactivity:  | Rat                                    |
| Host:        | Rabbit                                 |
| Clonality:   | Polyclonal                             |
| Conjugate:   | This PPY antibody is conjugated to FAM |
| Application: | Please inquire                         |

## Product Details

|                  |                                                                  |
|------------------|------------------------------------------------------------------|
| Isotype:         | IgG                                                              |
| Characteristics: | Full Name: Pancreatic Polypeptide (Rat) FAM Labeled Purified IgG |
| Purification:    | Purified IgG                                                     |

## Target Details

|                   |                                                         |
|-------------------|---------------------------------------------------------|
| Target:           | PPY                                                     |
| Alternative Name: | Pancreatic Polypeptide ( <a href="#">PPY Products</a> ) |
| Pathways:         | <a href="#">Feeding Behaviour</a>                       |

## Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

## Handling

---

|                  |                                                                                                                                                                                                                                                                        |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Format:          | Liquid                                                                                                                                                                                                                                                                 |
| Storage:         | 4 °C,-80 °C                                                                                                                                                                                                                                                            |
| Storage Comment: | Store at 2 to 4°C before hydration and at -70°C after rehydration. Most peptides are stable for approximately 3-6 month after rehydration. Typically, any peptide containing Tryptophane, Cystein and Methionine can be easily oxidized and are therefore less stable. |
