## Overview

|                      |                                    |
|----------------------|------------------------------------|
| Quantity:            | 200 µg                             |
| Target:              | NPS                                |
| Binding Specificity: | AA 23-67, Preproprotein            |
| Reactivity:          | Human                              |
| Host:                | Rabbit                             |
| Clonality:           | Polyclonal                         |
| Conjugate:           | This NPS antibody is un-conjugated |
| Application:         | Western Blotting (WB)              |

## Product Details

|               |                                                  |
|---------------|--------------------------------------------------|
| Immunogen:    | 5-10 mg of > 70% pure peptide conjugated to KLH. |
| Isotype:      | IgG                                              |
| Purification: | Purified IgG                                     |

## Target Details

|                   |                                                 |
|-------------------|-------------------------------------------------|
| Target:           | NPS                                             |
| Alternative Name: | Neuropeptide S ( <a href="#">NPS Products</a> ) |

## Application Details

|               |                       |
|---------------|-----------------------|
| Restrictions: | For Research Use only |
|---------------|-----------------------|

Handling

---

|                  |                                                                                                                                                         |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------|
| Storage:         | 4 °C,-20 °C                                                                                                                                             |
| Storage Comment: | Store antibodies at 2-4°C before and at -20°C after rehydration. The product is stable for approximately 3-6 weeks after rehydration at -20°C or below. |
