## **anti-Influenza B Virus antibody (Yamagata) (HRP)**

[Go to Product page](#)

### Overview

|               |                                                          |
|---------------|----------------------------------------------------------|
| Quantity:     | 1 mL                                                     |
| Target:       | Influenza B Virus                                        |
| Reactivity:   | Influenza B Virus                                        |
| Virus Strain: | Yamagata                                                 |
| Host:         | Goat                                                     |
| Clonality:    | Polyclonal                                               |
| Conjugate:    | HRP                                                      |
| Application:  | ELISA, Western Blotting (WB), Immunohistochemistry (IHC) |

### Product Details

|            |                                                                                                      |
|------------|------------------------------------------------------------------------------------------------------|
| Immunogen: | Influenza B antibody (HRP) was raised in goat using yamagata strain of Influenza B as the immunogen. |
|------------|------------------------------------------------------------------------------------------------------|

### Target Details

|                   |                   |
|-------------------|-------------------|
| Target:           | Influenza B Virus |
| Alternative Name: | Influenza B       |
| Target Type:      | Virus             |

### Application Details

|                    |                                                 |
|--------------------|-------------------------------------------------|
| Application Notes: | Optimal conditions to be determined by end user |
| Restrictions:      | For Research Use only                           |

## Handling

---

|                  |                                                                                          |
|------------------|------------------------------------------------------------------------------------------|
| Format:          | Liquid                                                                                   |
| Concentration:   | Lot specific                                                                             |
| Buffer:          | Liquid In PBS with 1 % BSA and 0.002 % thimerosal.                                       |
| Handling Advice: | Avoid repeated freeze/thaw cycles                                                        |
| Storage:         | -20 °C                                                                                   |
| Storage Comment: | Store at 4 °C for short term storage. Aliquot and store at -20 °C for long term storage. |
