

Datasheet for ABIN2884663  
**anti-NCOA3 antibody (AA 538-587)**

[Go to Product page](#)

## Overview

|                      |                                      |
|----------------------|--------------------------------------|
| Quantity:            | 100 µL                               |
| Target:              | NCOA3                                |
| Binding Specificity: | AA 538-587                           |
| Reactivity:          | Human, Mouse                         |
| Host:                | Rabbit                               |
| Clonality:           | Polyclonal                           |
| Conjugate:           | This NCOA3 antibody is un-conjugated |
| Application:         | ELISA, Immunohistochemistry (IHC)    |

## Product Details

|               |                                                      |
|---------------|------------------------------------------------------|
| Immunogen:    | Synthetic peptide from human NCoA-3 (aa538-587).     |
|               | Type of Immunogen: Synthetic peptide                 |
| Isotype:      | IgG                                                  |
| Specificity:  | NCoA-3 antibody detects endogenous levels of NCoA-3. |
| Purification: | Immunoaffinity purified                              |

## Target Details

|                   |                                                         |
|-------------------|---------------------------------------------------------|
| Target:           | NCOA3                                                   |
| Alternative Name: | NCOA3 / SRC-3 / AIB1 ( <a href="#">NCOA3 Products</a> ) |

## Target Details

|             |                                                                                                                                                                                                                         |
|-------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Background: | Name/Gene ID: NCOA3<br><br>Synonyms: NCOA3, ACTR, AIB1, BHLHe42, CAGH16, CBP-interacting protein, CTG26, AIB-1, P/CIP, TNRC14, TRAM-1, Nuclear receptor coactivator 3, PCIP, RAC-3, SRC3, TNRC16, KAT13B, NCoA-3, SRC-3 |
| Gene ID:    | 8202                                                                                                                                                                                                                    |
| UniProt:    | <a href="#">Q9Y6Q9</a>                                                                                                                                                                                                  |
| Pathways:   | <a href="#">Intracellular Steroid Hormone Receptor Signaling Pathway</a> , <a href="#">Regulation of Intracellular Steroid Hormone Receptor Signaling</a> , <a href="#">Regulation of Lipid Metabolism by PPARalpha</a> |

## Application Details

|                    |                                        |
|--------------------|----------------------------------------|
| Application Notes: | Approved: IHC, Peptide-ELISA (1:10000) |
| Comment:           | Target Species of Antibody: Human      |
| Restrictions:      | For Research Use only                  |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | Lot specific                                                                                                           |
| Buffer:            | PBS, pH 7.4, 150 mM sodium chloride, 0.02 % sodium azide, 50 % glycerol                                                |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | Store at -20°C.                                                                                                        |
