

Datasheet for ABIN288510

anti-HIV1RT antibody (FITC)

Overview

Target Type:

Quantity:	50 μg
Target:	HIV1RT
Reactivity:	Human Immunodeficiency Virus (HIV)
Host:	Mouse
Clonality:	Monoclonal
Conjugate:	This HIV1RT antibody is conjugated to FITC
Application:	Western Blotting (WB), ELISA
Product Details	
Immunogen:	HIV1-RT antibody (FITC) was raised in mouse using purified, full length recombinant RT (HIV-1, IIIB) as the immunogen.
Clone:	8C4D7
Isotype:	lgG1
Purification:	purified
Purity:	> 95 % pure
Target Details	
Target:	HIV1RT
Alternative Name:	HIV1-RT (HIV1RT Products)

Viral Protein

Application Details

Application Notes:	ELISA: 1:1,000, WB: 1:500
	Optimal conditions should be determined by the investigator.
	Optimal conditions should be determined by the investigator.
Restrictions:	For Research Use only

Handling	
Format:	Liquid
Concentration:	Lot specific
Buffer:	Supplied in liquid as a purified IgG in PBS buffer, with no preservatives added.
Preservative:	Without preservative
Treservative.	without preservative
Handling Advice:	Avoid repeated freeze/thaw cycles.
	Draduatia photograpitive and should be protected from light
	Product is photosensitive and should be protected from light.
	Dilute only prior to immediate use.
•	
Storage:	4 °C/-20 °C
Storage Comment:	Store at 4 °C until reconstitution. Following reconstitution aliquot and freeze at -70 °C for long
Storage Comment.	Store at 4 6 until reconstitution. Following reconstitution aliquot and freeze at -70 6 follong
	term storage.
Buffer: Preservative:	Supplied in liquid as a purified IgG in PBS buffer, with no preservatives added. Without preservative Avoid repeated freeze/thaw cycles. Product is photosensitive and should be protected from light. Dilute only prior to immediate use. 4 °C/-20 °C Store at 4 °C until reconstitution. Following reconstitution aliquot and freeze at -70 °C for Icc.
