## Overview

|                      |                                       |
|----------------------|---------------------------------------|
| Quantity:            | 100 µL                                |
| Target:              | MINPP1                                |
| Binding Specificity: | AA 311-360                            |
| Reactivity:          | Human, Rat, Mouse                     |
| Host:                | Rabbit                                |
| Clonality:           | Polyclonal                            |
| Conjugate:           | This MINPP1 antibody is un-conjugated |
| Application:         | ELISA, Western Blotting (WB)          |

## Product Details

|               |                                                          |
|---------------|----------------------------------------------------------|
| Immunogen:    | Synthetic peptide derived from human MINPP1 (aa311-360). |
|               | Type of Immunogen: Synthetic peptide                     |
| Isotype:      | IgG                                                      |
| Specificity:  | MINPP1 antibody detects endogenous levels of MINPP1.     |
| Purification: | Immunoaffinity purified                                  |

## Target Details

|                   |                                            |
|-------------------|--------------------------------------------|
| Target:           | MINPP1                                     |
| Alternative Name: | MINPP1 ( <a href="#">MINPP1 Products</a> ) |

## Target Details

|             |                                                                                             |
|-------------|---------------------------------------------------------------------------------------------|
| Background: | Name/Gene ID: MINPP1                                                                        |
|             | Synonyms: MINPP1, 2,3-BPG phosphatase, Ins(1,3,4,5)P(4) 3-phosphatase, MIPP, MINPP2, HIPER1 |

|          |      |
|----------|------|
| Gene ID: | 9562 |
|----------|------|

## Application Details

|                    |                                                        |
|--------------------|--------------------------------------------------------|
| Application Notes: | Approved: Peptide-ELISA (1:10000), WB (1:500 - 1:1000) |
| Comment:           | Target Species of Antibody: Human                      |
| Restrictions:      | For Research Use only                                  |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | Lot specific                                                                                                           |
| Buffer:            | PBS, pH 7.4, 150 mM sodium chloride, 0.02 % sodium azide, 50 % glycerol.                                               |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | Store at -20°C.                                                                                                        |
