## Overview

|              |                                              |
|--------------|----------------------------------------------|
| Quantity:    | 500 µg                                       |
| Target:      | CD45RB                                       |
| Reactivity:  | Mouse                                        |
| Host:        | Rat                                          |
| Clonality:   | Monoclonal                                   |
| Conjugate:   | This CD45RB antibody is conjugated to Biotin |
| Application: | Flow Cytometry (FACS), Western Blotting (WB) |

## Product Details

|            |                                                                                                  |
|------------|--------------------------------------------------------------------------------------------------|
| Immunogen: | CD45 RB antibody (biotin) was raised in rat using cloned murine Th2 cell lines as the immunogen. |
| Clone:     | C363-16A                                                                                         |
| Isotype:   | IgG2a                                                                                            |

## Target Details

|                   |                                            |
|-------------------|--------------------------------------------|
| Target:           | CD45RB                                     |
| Alternative Name: | CD45RB ( <a href="#">CD45RB Products</a> ) |

## Application Details

|                    |                                                              |
|--------------------|--------------------------------------------------------------|
| Application Notes: | Optimal conditions should be determined by the investigator. |
| Restrictions:      | For Research Use only                                        |

## Handling

---

|                    |                                                                                                                         |
|--------------------|-------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                  |
| Concentration:     | Lot specific                                                                                                            |
| Buffer:            | Supplied as a liquid in PBS, with NaN <sub>3</sub> added as preservative.                                               |
| Preservative:      | Sodium azide                                                                                                            |
| Precaution of Use: | This product contains Sodium Azide: a POISONOUS AND HAZARDOUS SUBSTANCE, which should be handled by trained staff only. |
| Storage:           | 4 °C                                                                                                                    |
