## Overview

|                      |                                                                                                                                            |
|----------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Quantity:            | 100 µL                                                                                                                                     |
| Target:              | RAD52                                                                                                                                      |
| Binding Specificity: | Asn99                                                                                                                                      |
| Reactivity:          | Human, Mouse                                                                                                                               |
| Host:                | Rabbit                                                                                                                                     |
| Clonality:           | Polyclonal                                                                                                                                 |
| Conjugate:           | This RAD52 antibody is un-conjugated                                                                                                       |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC), Immunofluorescence (IF),<br>Immunohistochemistry (Paraffin-embedded Sections) (IHC (p)) |

## Product Details

|               |                                               |
|---------------|-----------------------------------------------|
| Immunogen:    | Synthetic peptide around Asn99 of human RAD52 |
|               | Type of Immunogen: Synthetic peptide          |
| Specificity:  | Human RAD52                                   |
| Purification: | Immunoaffinity purified                       |

## Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | RAD52                                    |
| Alternative Name: | RAD52 ( <a href="#">RAD52 Products</a> ) |
| Background:       | Name/Gene ID: RAD52                      |

## Target Details

Synonyms: RAD52, RAD52 (S. cerevisiae) homolog, RAD52 homolog (S. cerevisiae),  
Recombination protein RAD52

Gene ID: 5893

UniProt: [P43351](#)

Pathways: [DNA Damage Repair](#)

## Application Details

Application Notes: Optimal working dilution should be determined by the investigator.

Comment: Target Species of Antibody: Human

Restrictions: For Research Use only

## Handling

Format: Liquid

Concentration: Lot specific

Buffer: PBS, pH 7.2, 0.05 % sodium azide

Preservative: Sodium azide

Precaution of Use: This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only.

Handling Advice: Avoid repeated freezing and thawing.

Storage: 4 °C,-20 °C

Storage Comment: Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze-thaw cycles.
