## Overview

|                      |                                                   |
|----------------------|---------------------------------------------------|
| Quantity:            | 100 µL                                            |
| Target:              | CDC27                                             |
| Binding Specificity: | Lys390                                            |
| Reactivity:          | Human, Rat, Mouse                                 |
| Host:                | Rabbit                                            |
| Clonality:           | Polyclonal                                        |
| Conjugate:           | This CDC27 antibody is un-conjugated              |
| Application:         | Western Blotting (WB), Immunohistochemistry (IHC) |

## Product Details

|               |                                                |
|---------------|------------------------------------------------|
| Immunogen:    | Synthetic peptide around Lys390 of human CDC27 |
|               | Type of Immunogen: Synthetic peptide           |
| Specificity:  | Human CDC27                                    |
| Purification: | Immunoaffinity purified                        |

## Target Details

|                   |                                          |
|-------------------|------------------------------------------|
| Target:           | CDC27                                    |
| Alternative Name: | CDC27 ( <a href="#">CDC27 Products</a> ) |
| Background:       | Name/Gene ID: CDC27                      |

## Target Details

|          |                                                                                                                                    |
|----------|------------------------------------------------------------------------------------------------------------------------------------|
|          | Synonyms: CDC27, ANAPC3, APC3, CDC27 homolog, Cell division cycle 27, D0S1430E, CDC27Hs, D17S978E, H-NUC, Nuc2 homolog, HNUC, NUC2 |
| Gene ID: | 996                                                                                                                                |
| UniProt: | <a href="#">P30260</a>                                                                                                             |

## Application Details

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator. |
| Comment:           | Target Species of Antibody: Human                                  |
| Restrictions:      | For Research Use only                                              |

## Handling

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Format:            | Liquid                                                                                                                 |
| Concentration:     | Lot specific                                                                                                           |
| Buffer:            | PBS, pH 7.2, 15 mM sodium azide                                                                                        |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Handling Advice:   | Avoid repeated freezing and thawing.                                                                                   |
| Storage:           | 4 °C,-20 °C                                                                                                            |
| Storage Comment:   | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze-thaw cycles.                               |
