## Overview

|              |                                                                                         |
|--------------|-----------------------------------------------------------------------------------------|
| Quantity:    | 200 µL                                                                                  |
| Target:      | Albumin (ALB)                                                                           |
| Reactivity:  | Human, Mouse                                                                            |
| Host:        | Rabbit                                                                                  |
| Clonality:   | Polyclonal                                                                              |
| Conjugate:   | This Albumin antibody is un-conjugated                                                  |
| Application: | Western Blotting (WB), Immunofluorescence (fixed cells) (IF/ICC), Flow Cytometry (FACS) |

## Product Details

|               |                                                                                                               |
|---------------|---------------------------------------------------------------------------------------------------------------|
| Immunogen:    | Human ALB.                                                                                                    |
| Isotype:      | IgG                                                                                                           |
| Purification: | This antibody is prepared by Saturated Ammonium Sulfate (SAS) precipitation followed by dialysis against PBS. |

## Target Details

|                   |                                      |
|-------------------|--------------------------------------|
| Target:           | Albumin (ALB)                        |
| Alternative Name: | ALB ( <a href="#">ALB Products</a> ) |
| UniProt:          | <a href="#">P02768</a>               |
| Pathways:         | <a href="#">Lipid Metabolism</a>     |

## Application Details

|                    |                                                                                                                        |
|--------------------|------------------------------------------------------------------------------------------------------------------------|
| Application Notes: | Optimal working dilution should be determined by the investigator.                                                     |
| Restrictions:      | For Research Use only                                                                                                  |
| Handling           |                                                                                                                        |
| Format:            | Liquid                                                                                                                 |
| Buffer:            | PBS with 0.09 % (W/V) sodium azide.                                                                                    |
| Preservative:      | Sodium azide                                                                                                           |
| Precaution of Use: | This product contains Sodium azide: a POISONOUS AND HAZARDOUS SUBSTANCE which should be handled by trained staff only. |
| Storage:           | -20 °C                                                                                                                 |
| Storage Comment:   | Aliquot and store at -20 °C. Avoid repeated freeze/thaw cycles.                                                        |
